

(A 12lb bird is 1 hr).

place the bird over cone

*By placing the bird over the cone you are actually cooking him from the inside out and the outside in.*

place the thermometer in the breast and add liquid to the bottom rack. When you put the lid on match up the notches and it will lock into place. Turn your heat to med heat.

You can use the Ultimate Roaster from camp fire, propane stove, commercial oven, or on **top of your electric stove.**
